# ProfiScale CROSS

## Cross line laser level with tripod

### The tool for straight lines.

In the future there will be nothing in your home which is not hanging straight. Align your furniture ①, pictures ②, borders and tiles ③ the easy way. The lasers in the ProfiScale CROSS cross line laser level are self-

adjusting and show horizontal and vertical lines up to 20 metres long. You'll have both hands free at all times – whether the device is suspended, standing upright or placed on the tripod ④.

*It is now so easy  
to straighten  
tiles, pictures and  
mirrors properly.*
